

■ The Project CV Script (Content Structure)

[Header: Bold & Modern]

ROOHULAMIN

BS Computer Science Student | Northern University Nowshera 📍 Nowshera, KPK | ✉️ rohulameen1544@gmail.com | 📞 +92 309 8711038 [GitHub](#) | [LinkedIn](#)

[Section 1: Professional Summary] Highly motivated BSCS student with a **perfect 4.0/4.0 GPA** and a passion for turning complex logic into elegant code. Proven winner in web development and database competitions. Experienced in Python automation, OCR systems, and minimalist UI design.

[Section 2: Education]

- **Bachelor of Science in Computer Science (BSCS)**
 - Northern University Nowshera | *Expected 2027*
 - **Current GPA: 4.0 / 4.0**
 - Relevant Coursework: Web Technology, Data Structures, Database Systems, Python Programming.
-

[Section 3: Key Technical Projects]

- **Handwriting Recognition System (HRS)**
 - *Tech:* Python, Flask, OpenCV, Tesseract OCR.
 - *Role:* Lead Developer. Built a system to digitize handwritten text with a real-time drawing canvas and spell-correction logic.
 - **Northern Web Society Portal**
 - *Tech:* HTML5, CSS3, JavaScript.
 - *Achievement:* Won **1st Place** in University Web Design Competition.
-

[Section 4: Honors & Awards]

- **Dean's List:** Awarded for maintaining a perfect GPA (Semesters 1 & 2).
- **Gold Medalist:** Web Development Society Competition.
- **Top Position:** University Database Schema Challenge.

- **Best Speaker:** Annual English Speech Competition (Northern University).
-

[Section 5: Core Skills]

- **Programming:** Python (Automation/AI), C++, Java.
 - **Web Tech:** HTML5, CSS3 (Grid/Flexbox), JavaScript (ES6).
 - **Tools:** Git, GitHub, VS Code, Photoshop (UI Design).
-

🔗 Design Tips for the PDF (Eye-Catching Format)

To make this "eye-catching" for Behance or your teacher, follow these simple design rules in Word or Canva:

1. **The "Power of White Space":** Don't cram everything together. Leave margins. Minimalist white looks expensive.
 2. **Typography:** Use **Inter** or **Roboto** for the body text and **Montserrat** for headings.
 3. **Accent Color:** Use your portfolio's accent color (the **Apple-style Blue** #0071E3) only for your name and section headings.
 4. **Icons:** Add small FontAwesome-style icons next to your phone number, email, and skills.
-

🎓 BSCS Knowledge Tweak: The "Action Verb" Technique

In a professional CV, never say "I was responsible for..." or "I learned...". Instead, use **Action Verbs**.

- **Bad:** "I was in a team that made an OCR project."
- **Good:** "**Engineered** an AI-driven OCR system that **optimized** text digitization by 40%."

Using words like *Engineered*, *Optimized*, *Developed*, and *Architected* makes you sound like a professional engineer.
